

Technology Introduce

BRIGHT TECHNOLOGY

The three-layer electroplating creates extremely deep and uniform coatings, and meanwhile the molecular structures between the coatings of nickel plating, and chrome plating are very dense, which makes it bright as a mirror and shining like sunshine, dustproof and antifouling, able to resist scratches and never fade.

CONSTANTE FLOWING TECHNOLOGY

Constant flowing bubbler has overcome the traditional disadvantages of flowing, increased the increase of water pressure, and water flow is constant when the pressure is above 0.3Mpa.

SMOOTH TECHNOLOGY

The unique valve core is made by advanced ceramic alloy in the closed environment, and coated with a special lubricant coating, and this feature can ensure that the product is smooth for use as the new one for many years.

NOISE-FREE TECHNOLOGY

The inner wall of corporation faucet is smooth, which is consistent with the principles of fluid mechanics, the precision internal structure and design has ensured the silent and meticulous.

CONTENTS 目录

系列产品 Series Product	01-24
面盆龙头 Basin Faucets	25-40

KITCHEN FAUCET

With a decisive cut but with soft and slender shapes, designer creates a new aesthetic code in the kitchen, combining creativity and refinement in a seductive game of sinuosity.

INDEED THE SOURCE OF
LIFE ENJOYMENT

The square and the round, the arc and the line, such simplest line expresses the pure, leisure, fully relaxing atmosphere. And such atmosphere makes us relaxed and happy and inebriated. Our Bathroom Faucet series inspires you with the details. And these details are indeed the source of life enjoyment.
