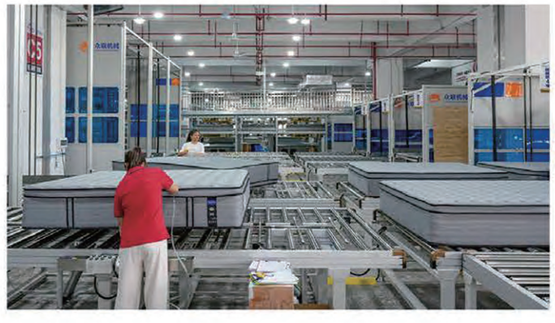
Offer Sweet Dreams To The world

SINCE
1992

Export to **120** countries and regions

Establish partnership with **337** brands



COMPANY INTRODUCTION

Established in 1992, is a leading manufacturer which specializes in the production of top quality upholstered beds and mattresses.We focus on providing a full set of sleep solution. Our main products include upholstered bed, spring mattress, foam mattress and pillow. We have more than 15 sets of factory facilities and excellent self-developed production lines for bed and mattress manufacturing that got patent certificates in China.

With 33-year experience, we export to more than 120 countries and provide OEM&ODM service for 337 brands all over the world. Nowadays, we have standard workshops of over 630,000 square meters and workforce of 800 well-trained professionals. The capacity has reached a level of 1,600,000 pieces per year.

The company can provide customers with a variety of customized wholesale mattresses and beds for different countries and regions, giving them a night of good and healthy sleep. Our mission is to offer sweet dreams to the world.

INGENITY 47PD-01

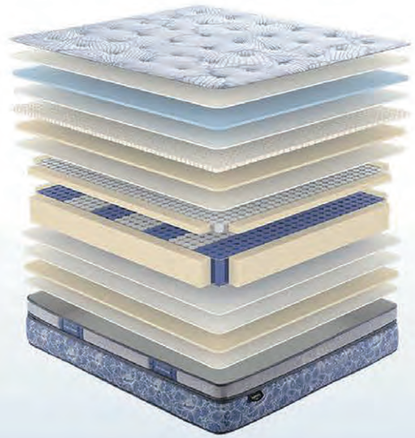
Model / 47PD-01

Firmness / 1-Very soft — 5-Medium — 10-Very Firm

Height / **32cm**

Main structures /

- Luxury Knitted Fabric
- Anti-bacterial Suprelle Fiber
- 2nd Skin Foam
- Eco-logy Foam
- High Density Foam
- Mini Pocket Spring With Foam Encasement
- 7 Zone Pocket Spring With Foam Encasement



Latex Like Foam

The new generation of foam material has superior elasticity and air permeability comparable to latex, and is not as easy to powder as latex.

Bio-based Soft Foam

Good elasticity, strong pressure release ability, can be naturally degraded, naturally harmless.

Mini Pocket Spring with Foam Encasement

Made up of many small springs which operating independently. When you move on the bed, only the springs under pressure will rebound. This independent support can better adapt to the curves and contours of your body.

7 Zone Pocket Spring

Provide different support for 7 different parts of the body: head and neck, shoulders and back, waist, buttocks, thighs, calves and feet.

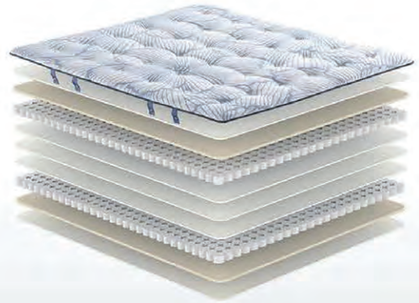
Main structures /

- Luxury Knitted Fabric
- Wool And Cotton Blend
- Q cotton
- Horse Tail Hair
- Mini Pocket Spring



Luxury Knitted Fabric

It has good elasticity and adaptability, easily conforming to body curves, providing a warm and skin-friendly touch.

Wool And Cotton Blend

Wool and cotton fibers offers excellent moisture absorption and breathability. They maintain a temperature close to the body's ideal sleep level, promoting deeper and more restful sleep.

Horse Tail Hair

Horsehair, a natural fiber used in mattresses, offers cooling, moisture-wicking, and breathability. Each naturally curled strand acts like a mini-spring. With millions of such strands, the entire mattress provides resilient, ventilated support.

Mini Pocket Spring

Mini pocket springs are made up of many small springs which operating independently. When you move on the bed, only the springs under pressure will rebound.

Comfortable Soy Fiber

Fluffy and breathable, natural, harmless and odorless, provides excellent comfort for restful sleep.

Bio-based Memory Foam

Special materials and patented technical formulas are formed to maintain good comfort in low temperature. Naturally degraded, naturally harmless.

Wool Dacron Foam

The fiber structure of wool allows a lot of air to circulate between the fibers, making it an excellent natural thermal insulation, elasticity and recovery.

Lady S Pocket Spring with Foam Encasement

The independent 10 turns coil system offers soft area, buffer area, durable strong support from hundreds of independent coils.

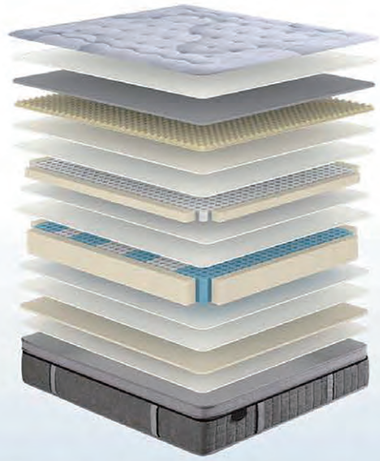
Height / **30cm**

Main structures /

- Luxury knitted fabric
- Bamboo charcoal memory foam
- Thick convoluted foam
- Mini pocket spring with foam encasement
- 7 Zone pocket spring with foam encasement



Luxury Knitted Fabric

It has good elasticity and adaptability, easily conforming to body curves, providing a warm and skin-friendly touch.

Bamboo Charcoal Memory Foam

Based on traditional memory foam, it is a new composite material infused with bamboo charcoal fibers. It boasts strong adsorption capabilities, offering natural purification, moisture absorption, damp-proofing, antibacterial, anti-mite, and enhanced breathability functions.

Mini Pocket Spring with Foam Encasement

Made up of many small springs which operating independently. When you move on the bed, only the springs under pressure will rebound. This independent support can better adapt to the curves and contours of your body.

7 Zone Pocket Spring

Provide different support for 7 different parts of the body: head and neck, shoulders and back, waist, buttocks, thighs, calves and feet.

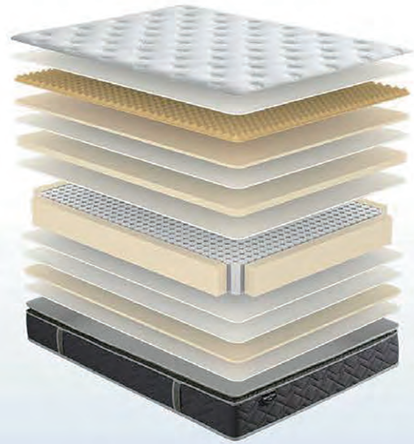
NATURE FRESH 32PB-31

Model	/	32PB-31
Firmness	/	6 (1-Very soft / 5-Medium / 10-Very Firm)
Height	/	**30cm**
Main structures	/	• Allergen Tech Fabric • Dacron Foam • Thick Convoluted Foam • High Density Foam • Pocket Spring With Foam Encasement



Allergen Tech Fabric

Allergen Tech is a fabric technology that reduces inactive surface allergens such as dust mite substances and pet allergens, through the sustained action of active probiotics.

High Density Foam

It can adapt to the curves of the body, relieve pressure points, and provide good support and cushioning.

Thick Convoluted Foam

It has good shock absorption properties and can absorb impacts and vibrations from the outside, providing a more stable and calm environment.

Pocket Spring With Foam Encasement

The independent coil system offers durable support and minimize motion transfer from a sleeper, while maintaining spinal alignment.

Ingenity AM-05

Model / AM-05

Height / **34cm**

Air Bag

Customize your comfort with adjustable air bag. Each press adjusts the firmness incrementally, or use the one-touch buttons to immediately soften or firm the surface.

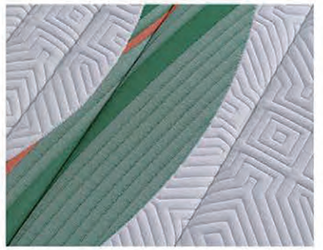
Dual-Motor Drive System

Our dual-motor bed base independently adjusts head and foot height, conforming to your body for optimal comfort. Easy to use and compatible with most bed frames. Perfect for reading, relaxing, or sleeping.

Gel Memory Foam

The addition of cool gel particles optimizes the heat dissipation function of the memory foam, allowing the mattress to maintain the most suitable sleeping temperature.

Fansace Smart Mattress AM-04



Model	/	AM-04
Height	/	**30cm**

Dual-Surface Cushion

Dual-surface cushion (Icy-Cool/Tencel) adapts to seasonal needs, paired with dual-firmness tech. Dual-Motor system maintains ≤25dB silent operation through 0-75° precision adjustment. The complete comfort solution for premium lifestyles.

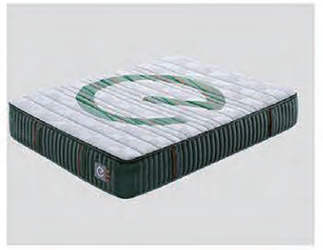
Air Memory Foam

Air memory foam is a advanced mattress material that combines the pressure-relieving properties of traditional memory foam with enhanced breathability. It features open-cell structures or gel infusions to improve airflow, keeping the mattress cooler while providing contouring support and reducing motion transfer.

Self-Adjustable Airbag

Customized Support: The airbags can be individually adjusted to provide personalized support to different parts of the body. This ensures optimal spinal alignment and reduces pressure points, which can help alleviate back pain and improve overall sleep quality.

Fansace Flexible Mattress Ultra AM-02



Model	/	AM-02
Height	/	**28cm**

Dual-Surface Cushion

Dual-surface cushion (Icy-Cool/Tencel) adapts to seasonal needs, paired with dual-firmness tech. Dual-Motor system maintains ≤25dB silent operation through 0-75° precision adjustment. The complete comfort solution for premium lifestyles.

Polymer Latex

It is a kind of latex made by using foaming technology, not only has the hole structure of foam, but possesses good air permeability. It maintains excellent elasticity and support.

BounceMax Foam

BounceMax foam is a highly responsive and durable material that provides excellent support and pressure relief by contouring to the body's shape. It offers superior breathability, motion isolation, and long-lasting resilience, making it ideal for mattresses that balance comfort and durability.

Fansace Flexible Mattress Pro AM-03

Model	/	AM-03
Height	/	**30cm**

Dual-Motor Precision

Dual-Motor precision meets flip-tech comfort. The reversible cushion offers dual firmness options, complementing the 0-75° silent adjustment (≤25dB). Pro-level customization balances sophistication with practicality for discerning users.

Polymer Latex

It is a kind of latex made by using foaming technology, not only has the hole structure of foam, but possesses good air permeability. It maintains excellent elasticity and support.

BounceMax Foam

BounceMax foam is a highly responsive and durable material that provides excellent support and pressure relief by contouring to the body's shape. It offers superior breathability, motion isolation, and long-lasting resilience, making it ideal for mattresses that balance comfort and durability.

Fansace Flexible Mattress Entry AM-01

Model	/	AM-01
Height	/	**25cm**

Dual-Motor Drive System

Dual-motor drive system enables 0-75° smooth adjustment for personalized positioning. Enjoy whisper-quiet operation (≤25dB) during angle changes. This entry-level model delivers core functionality with easy controls and exceptional value, perfect for basic relaxation needs.

Polymer Latex

It is a kind of latex made by using foaming technology, not only has the hole structure of foam, but possesses good air permeability. It maintains excellent elasticity and support.

High Resilience Foam

HR foam absorbs motion, reducing disturbances caused by movement.
