## PRODUCT DISPLAY

### • ECOLOGICAL PAVILION (Pabellón ecológico) •

#### All aluminum material

Aluminum alloy material is lightweight, corrosion-resistant, not easy to rust, easy to clean and maintain, and has a long service life.

#### Rich functionality

Providing functions such as sun protection, rain shelter, and wind protection, it can be used for outdoor rest, gatherings, yoga practice, etc., meeting people's diverse needs.

#### Durable and long-lasting

The fabric is resistant to fading after 5 years of sun exposure, with a light fastness of 8 levels. The profile is sturdy, corrosion-resistant, not easy to rust, and easy to clean and maintain.

#### Easy to use

The overall operation of the pavilion is simple and can be manually or electrically controlled, making it easy and fast to use without occupying additional space.

#### Outdoor living room without illegal construction

Where are the boundaries of home space design? There are actually no limitations, design is full of possibilities.

#### Applicable places

Suitable for outdoor places such as courtyards, gardens, parks, villas, and famous hotels, providing comfortable resting and activity spaces for people.

🌿 WPC Outdoor Products Introduction

### What is WPC?

Wood Plastic Composite (WPC) is a new eco-friendly material, made from: 55% Wood Powder; 30% High-Quality PE; 15% Special Additives. This innovative combination brings together the natural look of wood with the durability of plastic.

### 🌟 Advantages of WPC:

- ✓ Eco-Friendly – 100% recyclable, sustainable material
- ✓ Weather Resistant – No cracking, warping, or fading under sun and rain
- ✓ Low Maintenance – No painting, no polishing, easy to clean
- ✓ Durable & Long-Lasting – Resistant to termites, corrosion, and moisture
- ✓ Safe & Comfortable – Anti-slip, splinter-free, suitable for barefoot walking
- ✓ Aesthetic Variety – Rich colors and natural wood-like textures

### 🏠 Application Scenarios:

- Outdoor decking for gardens, patios, and swimming pools
- Exterior wall cladding for villas, resorts, and commercial buildings
- Pergolas, fences, and railing systems
- Park benches, outdoor furniture, and landscape projects

👉 WPC – The perfect balance of beauty, strength, and sustainability.
